

Osmocote® Pro

SKU# E90180*

- For use on nursery stock, foliage and landscapes.
- 2nd Generation Osmocote® Pro contains Osmocote® N-P-K blended with micronutrients and other fertilizer technologies, to deliver nutrition consistently within specified longevities.
- This product contains micronutrients in sulfated form for improved plant availability.
- Does not contain urea.

* Available in Canada SKU # E90180C

Derived from: Polymer-coated: ammonium nitrate, ammonium phosphate, calcium phosphate, potassium sulfate; ferrous sulfate, manganese sulfate, zinc sulfate, copper sulfate and sodium molybdate.

* The nitrogen, phosphorus, potassium and sulfur sources have been coated to provide 14.4% coated slow-release nitrogen (N), 4.2% coated slow-release available phosphate (P₂O₅), 9.3% coated slow-release soluble potash (K₂O) and 3.0% coated slow-release sulfur (S).

For Professional Use Only

Everris recommends a product trial prior to adopting a new fertilizer program. Product selection and application rate should be based on individual grower practices. The following are general recommendations only.

CONTAINER NURSERY STOCK SUGGESTED APPLICATION AND RATES

Product selection and application rate should be based on individual grower practices. Some factors that influence selection include:

- Climate
- Specific Crop
- Type of Growing Media
- Other Nutrient Sources
- Irrigation Type
- Rainfall Amount
